

Bring completed HAP to class on Wednesday, December 4

Terms: Define and explain the historical significance for Latin America:

- Neoliberalism

- Income Inequality & the Gini Coefficient

Historical Analysis

1. What is the central argument presented by Jeremy Adelman and Pablo Pryluka?

2. What evidence do they present?

3. Do you find this persuasive? Why or why not?

4. Who is Joseph E. Stiglitz?

5. What is Stiglitz's argument?

6. What evidence does he present?

[continues on reverse]

7. Analyze the OECD graph for income inequality. What countries stand out to you?
Drawing on what we've learned this semester, what do you think are the implications of this data?

8. How does your study of Chilean history help you understand the recent protests there?
